

This Changes Everything

Snap & Slide® Assembly
No Tools needed

The iBooth is a revolutionary, lightweight, interpretation booth designed for the SI rental industry. With its unique design and easy to use Snap & Slide® system the iBooth effectively saves thousands of dollars in transportation costs compared to any other model on the market.

The iBooth by Tages-Audio features the following:

- No tools required with our patented easy to setup Snap & Slide® system
- Lightest full-sized interpretation booth, 298 lbs (134.5 kg) total weight
- Compact revolutionary design provides for easy to manage and transport in two (2) ATA-125 shipping cases
- Case dimensions are only 38" x 28" x 28" (95cm x 70cm x 45cm)
- (5) Acrylic® panels allow for a full 180° view
- (2) Silent exhaust fans operating at 55CFM for maximum air circulation
- Lightweight design makes booth able to be shipped via any common courier service like FedEx, UPS and DHL at standard services rates
- Modular design including interior partition panels available for custom configurations
- Booth exceeds ISO 4043 standard with special sound-baffling material

ISO 4043 - Mobile booth for simultaneous interpretation

The aim of this International Standard, prepared at the request of the International Association of Conference Interpreters (AIIC) and the Joint Service Interpretation-Conferences (JSIC) of the European Commission (EU), is to provide optimal conditions for simultaneous interpretation using mobile booths.

MSRP \$9,995.00USD

The iBooth by Tages-Audio is manufactured and available through Lexicon-Global exclusively.

Each Transport Cases 38" x 26" x 20"
(95 cm x 70 cm x 45 cm)

Bigger Better Lighter

The LB200 is the new standard for portable applications. The LB200 is designed to allow your interpreters to sit comfortably on any standard 6-foot table allowing enough room to easily access their interpreting consoles, microphones, laptops and meeting materials. The LED lights allow for a convenient dimmable light source.

The LB200 includes:

- No tools required with our patented easy to setup Snap & Slide® system
- 6 panel window panels (providing 160° viewing angle)
- Side panels are designed to protrude over table creating an overhang for enhanced sound baffling
- 2 LED Littlite booth lights with 18" gooseneck
- Special sound-baffling composite material
- Lightweight design of only 85 lbs including transport case allowing booth able to be shipped via courier services like FedEx, UPS and DHL standard services rates
- interior partition panels available for custom configurations
- Custom configurations available

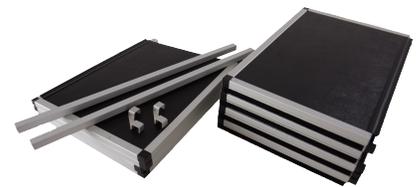

There are currently two LB series booths:

- LB200 Two-person Tabletop Booth (pictured here)
- LB100 One-person Tabletop Booth

With advance sound baffling materials, the LB series booths provide the best voice reduction of any booth available on the market. The booths help isolate the interpreters from ambient noises that may cause interruption of their concentration. The LB series travel cases are (available separately) rugged transport ready style cases.

MSRP \$2,791.00
